Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1-15, 17 and 19-23 are pending in this application.

Action Summary

1. The rejection of claims 1-6, 11-15 and 20-22 under 35 U.S.C. 102(b) over Argaud is being maintained for the reasons stated in the previous office action.
2. The rejection of claims 1, 9 and 23 under 35 U.S.C. 103(a) over Argaud is being maintained for the reasons stated in the previous office action.

Allowable Subject Matter

3. Claims 7-10 and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 7-10 and 17 are deemed allowable as the prior art does not disclose the claimed temperature modification device comprising a resistor layer which supply electricity to the skin.

Response to Arguments

4. Applicant's arguments filed January 26, 2004 have been fully considered but they are not persuasive.

Applicant argues that Argaud does not teach a "temperature modification device capable of controlling and selectively modifying a magnitude and duration of heat to achieve selective, precise, on demand delivery of said analgesic through said skin". It is

the position of the examiner that claim 2 is directed towards the same invention that is claimed in Argaud. Claim 2 comprises a shallow chamber defined by an air impermeable material wherein one side allows air to enter the chamber at a predetermined rate wherein a heat-generating medium is disposed within the chamber. It is the position that the predetermined rate of the airflow will determine the magnitude and duration of heat. The more air the greater the magnitude and duration of heat; less air, less magnitude and duration. As the apparatus is attached to the skin it is the position of the examiner that precise, on-demand delivery of the analgesic will be delivered through the skin.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
